Exhibit M. I-12 Industrial Site
Wastewater Infrastructure Upgrade
Letter & Map
General Notes:
1. No attempt has been made by CSRS, Inc. to verify site boundary, title, actual legal ownership, deed restrictions, servitudes, easements, or other burdens on the property, other than that furnished by the client or his representative.
3. Proposed wastewater upgrade shown is for representational purposes only, depicting the intent of the cost estimate provided with this exhibit to meet LED minimum requirements, and is subject to revision.
4. 2015 aerial imagery from USDA-APFO National Agricultural Inventory Project (NAIP) and may not reflect current ground conditions.

Re: I – 12 Industrial Site Wastewater System Cost Estimate  
CSRS Job No. 214094  

Dear Mr. Fitzpatrick:

According to local utility providers, the I-12 Industrial Site located along U.S. Highway 190 in Tangipahoa Parish, Louisiana has no existing wastewater infrastructure on site. In order to provide a wastewater treatment facility to treat 250,000 gallons per day (GPD), a wastewater treatment facility would need to be constructed on site.

To provide wastewater treatment, new wastewater treatment facilities will be created on site which would discharge to Bedico Creek. Expected discharge limits of BOD₅, TSS, NH₃, and Phosphorous are 10/15/2/5 mg/L, respectively. The construction cost of this new wastewater treatment facility and 60 feet of 6 inch wastewater discharge line to reach Bedico Creek is estimated to be $1,150,000.

Please note that these estimates do not include engineering, rights of way acquisition, environmental impacts and permitting or operation and maintenance costs. This cost estimates were prepared with the best information available at the time of certification. The actual costs can vary based on the availability of material, site conditions and labor availability. These plans can be executed within a reasonable timetable of 180 days based on preliminary engineering judgment.

Thank you for the opportunity to assist you in this project. Should you have any questions or require additional information, feel free to contact me.

Sincerely,

CSRS, Inc.

Taylor M. Gravois, PE, PLS

**Subtotal:** $952,250.00  

20% Contingency: x 1.20

**Rough Order of Magnitude (ROM):** $1,150,000.00

### Footnotes:

1.) Does not include costs for engineering, permitting, or general project management.  
2.) This cost estimate was prepared with the best information available at the time of certification.  
3.) Actual costs can vary based on availability of material, site conditions, and labor.  
4.) Wastewater Treatment Plant capacity based on LED required capacity of 250,000 GPD
