

Exhibit K: Red River Parish Port Site Wetlands & Cultural Encumbrances

Red River Parish Port Site Wetlands & Cultural Encumbrances

Site Exhibit for
Red River Parish Port Site
Red River Parish

Key Site Points:

- The U.S. Army Corps of Engineers (USACE) Approved Jurisdictional Determination (AJD) process was initiated February 2, 2024.
- The field visit for the AJD was completed March 11, 2024. The wetland delineation report was revised with the findings from the field visit. The USACE is reviewing the findings and finalizing the AJD.
- Typically, the AJD process takes 6 to 12 months.
- One of the three archaeological sites identified during the Phase I Cultural Resources Survey was considered potentially eligible for the National Register of Historic Places (NRHP) by All Phases Archaeology and SHPO. If Archaeological Site - 16RR361 cannot be avoided by future development, a Phase II Cultural Resources Survey will have to be performed on 16RR361.

General Notes:

1. The information presented herein is for planning purposes only. Further detailed due diligence MUST be completed prior to making decisions regarding the site.
2. No attempt has been made by CSRS, Inc. to verify site boundary, title, actual legal ownership, deed restrictions, servitudes, easements, or other burdens on the property, other than that furnished by the client or his representative.
3. Transportation data from 2023 TIGER datasets via U.S. Census Bureau at <https://www.census.gov/geographies/mapping-files/time-series/geo/tiger-line-file.html>.
4. Aerial imagery is compiled from multiple different sources to create one cohesive image and may not reflect current ground conditions.
5. Potential wetland data was derived from the 2024 Wetland Delineation Report completed by ECS.
6. Cultural resources data was derived from the 2024 Phase 1 Cultural Resources Survey completed by All Phases Archaeology.
