Exhibit H. Kent Site Wastewater Infrastructure Upgrade Letter

Mr. Jim Cavanaugh
Baton Rouge Area Chamber of Commerce
564 Laurel Street
Baton Rouge, LA 70801

**Re: *Pointe Coupee Parish
Potential Industrial Site
Designated as the "Kent" Site***

Dear Mr. Cavanaugh,

As a scope of work, you asked PESI to estimate the furnished and installed cost of a 50,000 gallon per day wastewater treatment plant to serve a potential industrial site designated as the "Kent" Site in Pointe Coupee Parish.

For planning purposes, this site can be served by an extended aeration concrete sewer treatment plant at a budget figure of \$250,000.00. This budget figure does not include any costs associated with a sewer collection system.

PESI is of the opinion that this wastewater treatment plant can be furnished and installed within 180 days from the time the project engineer is authorized to begin site design.

Please call should you have any questions.

Thank you,
PATIN ENGINEERS AND SURVEYORS, INC.

Thomas R. Olinde, P.E.
