Re. Allen Estates North Site Natural Gas Service Line

CSRS Job No. 214002

Dear Mr. Hager:

According to local utility officials, the Allen Estates North site located along Highway 90 in Jefferson Davis Parish, Louisiana does not have access to an existing natural gas distribution line to service the site. Multiple natural gas transmission lines exist on site and may be available for natural gas access. According to correspondence from Kinder Morgan Louisiana Pipeline, LLC and Tennessee Gas Pipeline Company, their lines are available for gas distribution via the installation of a tapping station. Exact location of the tapping station will need to be determined by the provider based on needed capacity and the location of the proposed site pad. The construction cost of a proposed natural gas tapping station is estimated to be \$480,000.

Please note this estimate does not include engineering, required rights of way, environmental impacts, or operation and maintenance costs. This cost estimate was prepared with the best information available at the availability. This plan can be executed within a reasonable timetable of 18 months or less based on preliminary engineering judgment.

Thank you for the opportunity to assist you in this project. Should you have any questions or require additional information, feel free to contact me.

Sincerely,

CSRS, Inc.

Allen Estates North Site Natural Gas Cost Estimate Job No. 214002

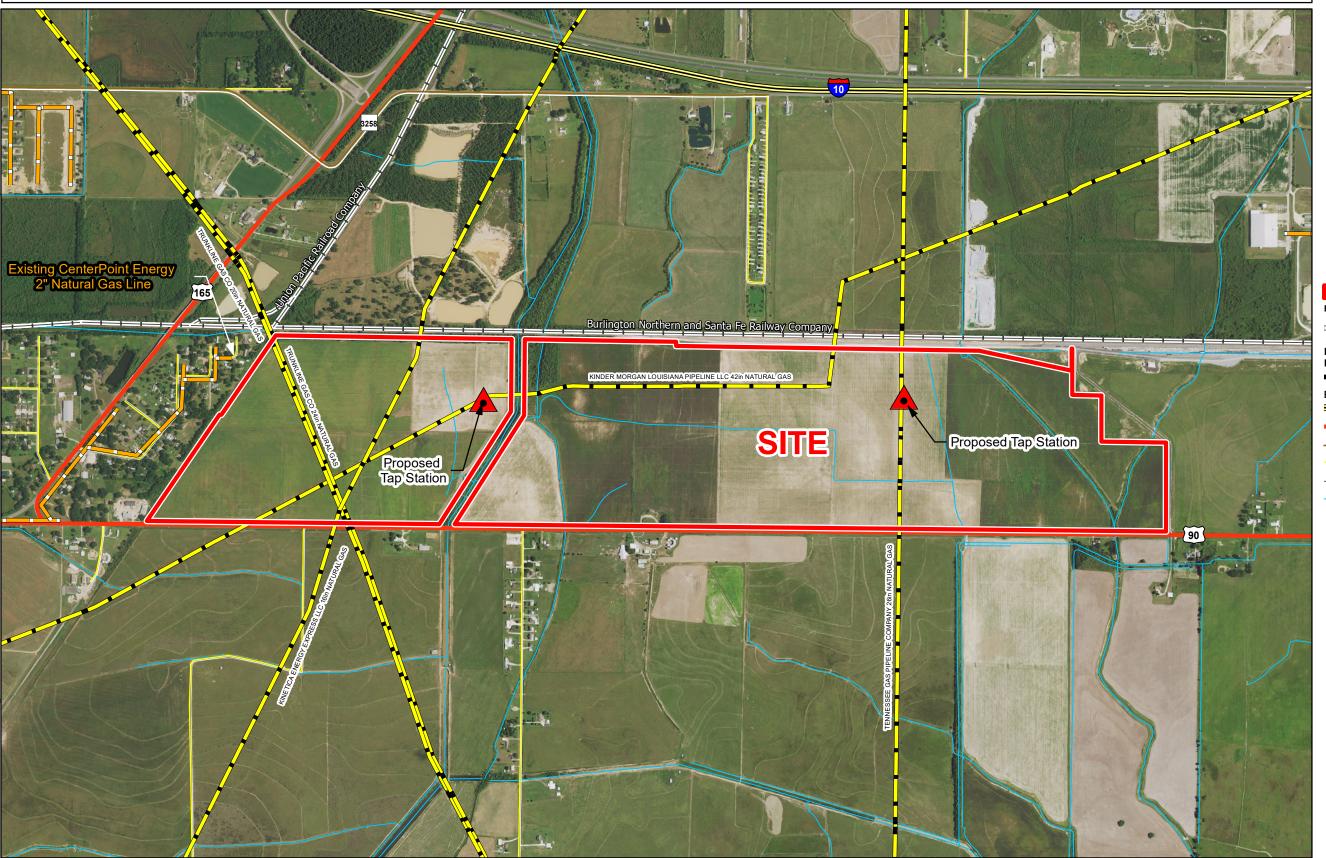

Rough Order of Magnitude Cost Estimate						
Item No.	Description	Unit	Est. Quantity	Unit Price	Extension	
1	High Pressure Pipeline Tap and Metering Station	Each	1	\$ 400,000.00	\$ 400,000.00	
				Subtotal:	\$ 400,000.00	
		20% Contingency $_1$:			x 1.20	
Rough Order of Magnitude (ROM):					\$ 480,000.00	

Footnotes:

- 1.) Does not include costs for engineering, permitting, or general project management.
- 2.) This cost estimate was prepared with the best information available at the time of certification.
- 3.) Actual costs can vary based on availability of material, site conditions, and labor.

General Notes:

- 1. No attempt has been made by CSRS, Inc. to verify site boundary, title, actual legal ownership, deed restrictions, servitudes, easements, or other burdens on the property, other than that furnished by the client or his representative.
- 2. Transportation data from 2013 TIGER datasets via U.S. Census gov/geo/tiger/TIGER2013.

 3. Utility information from visual inspection and/or the individual utility operators. Exact field location has not been determined by survey. The lines shown are an approximate representation only and may have been offset for depiction purposes.

 4. 2015 aerial imagery from USDA-APFO National Agricultural Inventory Project (NAIP) and may not reflect current ground conditions.
- 5. Proposed natural gas upgrade shown is for representational purposes only, depicting the intent of the cost estimate provided with this exhibit to meet LED minimum requirements, and is subject to revision.
