Ms Breaux,

Thank you for your time this afternoon directing me to the website information I needed. I am tasked with obtaining "shovel-ready" site certification for the three contiguous parcels of land shown on the attached map. Site certification is a function of the the Louisiana Department of Economic Development so there are no federal funds or involvement at all. This is a private offer of property inside the new St. Tammany Parish I-12 Economic Development Corridor zoned for future commercial development by a buyer or tenant.

The following web address directs you to the LED and a list of certified sites. It is a truly coveted designation which entails months of work and a substantial outlay of funds by an owner.

The LED address is:

1051 N. Third St.  
Baton Rouge, LA 70802  
225-342-3000

My contact there is Larry Henson, Dir. Business Intelligence
