Exhibit CC. Moseley South Site LA Dept. of Wildlife & Fisheries Letter

Personnel of the Coastal & Nongame Resources Division have reviewed the preliminary data for the captioned project.

The old prairie crawfish (*Fallicambarus macneesei*) may be located in the project area and is considered very rare globally and imperiled in Louisiana with a G3/S2 rank. This species typically resides in wet meadow habitats including ditches flooded by heavy rains, or in complex burrows carved into the sandy-clay soils of roadside ditches. Habitat protection is recommended for this species by avoiding disturbances such as water pollution, siltation, and the construction of dams. In addition, it is important to avoid disturbances of the soil/stream bottoms and to protect vegetation adjacent to these habitats. If you have any questions, please contact Beau Gregory at 337-491-2576.

After careful review of our database, no other impacts to rare, threatened, or endangered species or critical habitats are anticipated for the proposed project. No state or federal parks, wildlife refuges, scenic streams, or wildlife management areas are known at the specified site within Louisiana's boundaries.

The Louisiana Natural Heritage Program (LNHP) has compiled data on rare, endangered, or otherwise significant plant and animal species, plant communities, and other natural features throughout the state of Louisiana. Heritage reports summarize the existing information known at the time of the request regarding the location in question. The quantity and quality of data collected by the LNHP are dependent on the research and observations of many individuals. In most cases, this information is not the result of comprehensive or site-specific field surveys; many natural areas in Louisiana have not been surveyed. This report does not address the occurrence of wetlands at the site in question. Heritage reports should not be considered final statements on the biological elements or areas being considered, nor should they be substituted for on-site surveys required for environmental assessments. LNHP requires that this office be acknowledged in all reports as the source of all data provided here. If at any time Heritage tracked species are encountered within the project area, please contact the LNHP Data Manager at 225-765-2643. If you have any questions, or need additional information, please call 225-765-2357.

Sincerely,

Amity Bass, Coordinator
Natural Heritage Program

INVOICE

RETAIN THIS COPY FOR YOUR RECORDS

Date March 12, 2015
Invoice Number 15031203
Project Moseley South Site

Name Meredith Taylor
Company CSRS
Street Address 6767 Perkins Rd, Suite 200
City, State, Zip Baton Rouge, La 70808
Number of Quads Reviewed 1
Total Due \$30.00

Payment should be made to "Louisiana Department of Wildlife & Fisheries" within 30 days of the date of this invoice. Please include the invoice number on your check and return a copy of this invoice with your remittance to the following address:

Louisiana Department of Wildlife & Fisheries
Attn: Jennifer Riddle
P.O. Box 80399
Baton Rouge, LA 70898-0399

Should you have any questions regarding this invoice, for review of the Louisiana Natural Heritage database for information on known sensitive elements at a charge of \$30.00 per quad reviewed, please contact LNHP at (225) 765-2357.
