Site Exhibit for  
Chemin 3 Site  
Lafayette Parish, LA

**Key Site Points:**

- A wetlands delineation conducted on 12/8/25 identified approximately ±2,454 LF of Non-Wetland Jurisdictional Waters and ±6,200 LF of Non-Wetland Non-Jurisdictional Waters were present onsite. The site boundary has since been refined based on existing right of way identified during the Partial Title Abstract. As such, only ±659 LF Non-Wetland Jurisdictional Waters and only approximately ±2,755 LF of Non-Wetland Non-Jurisdictional Waters remain within the site boundary.

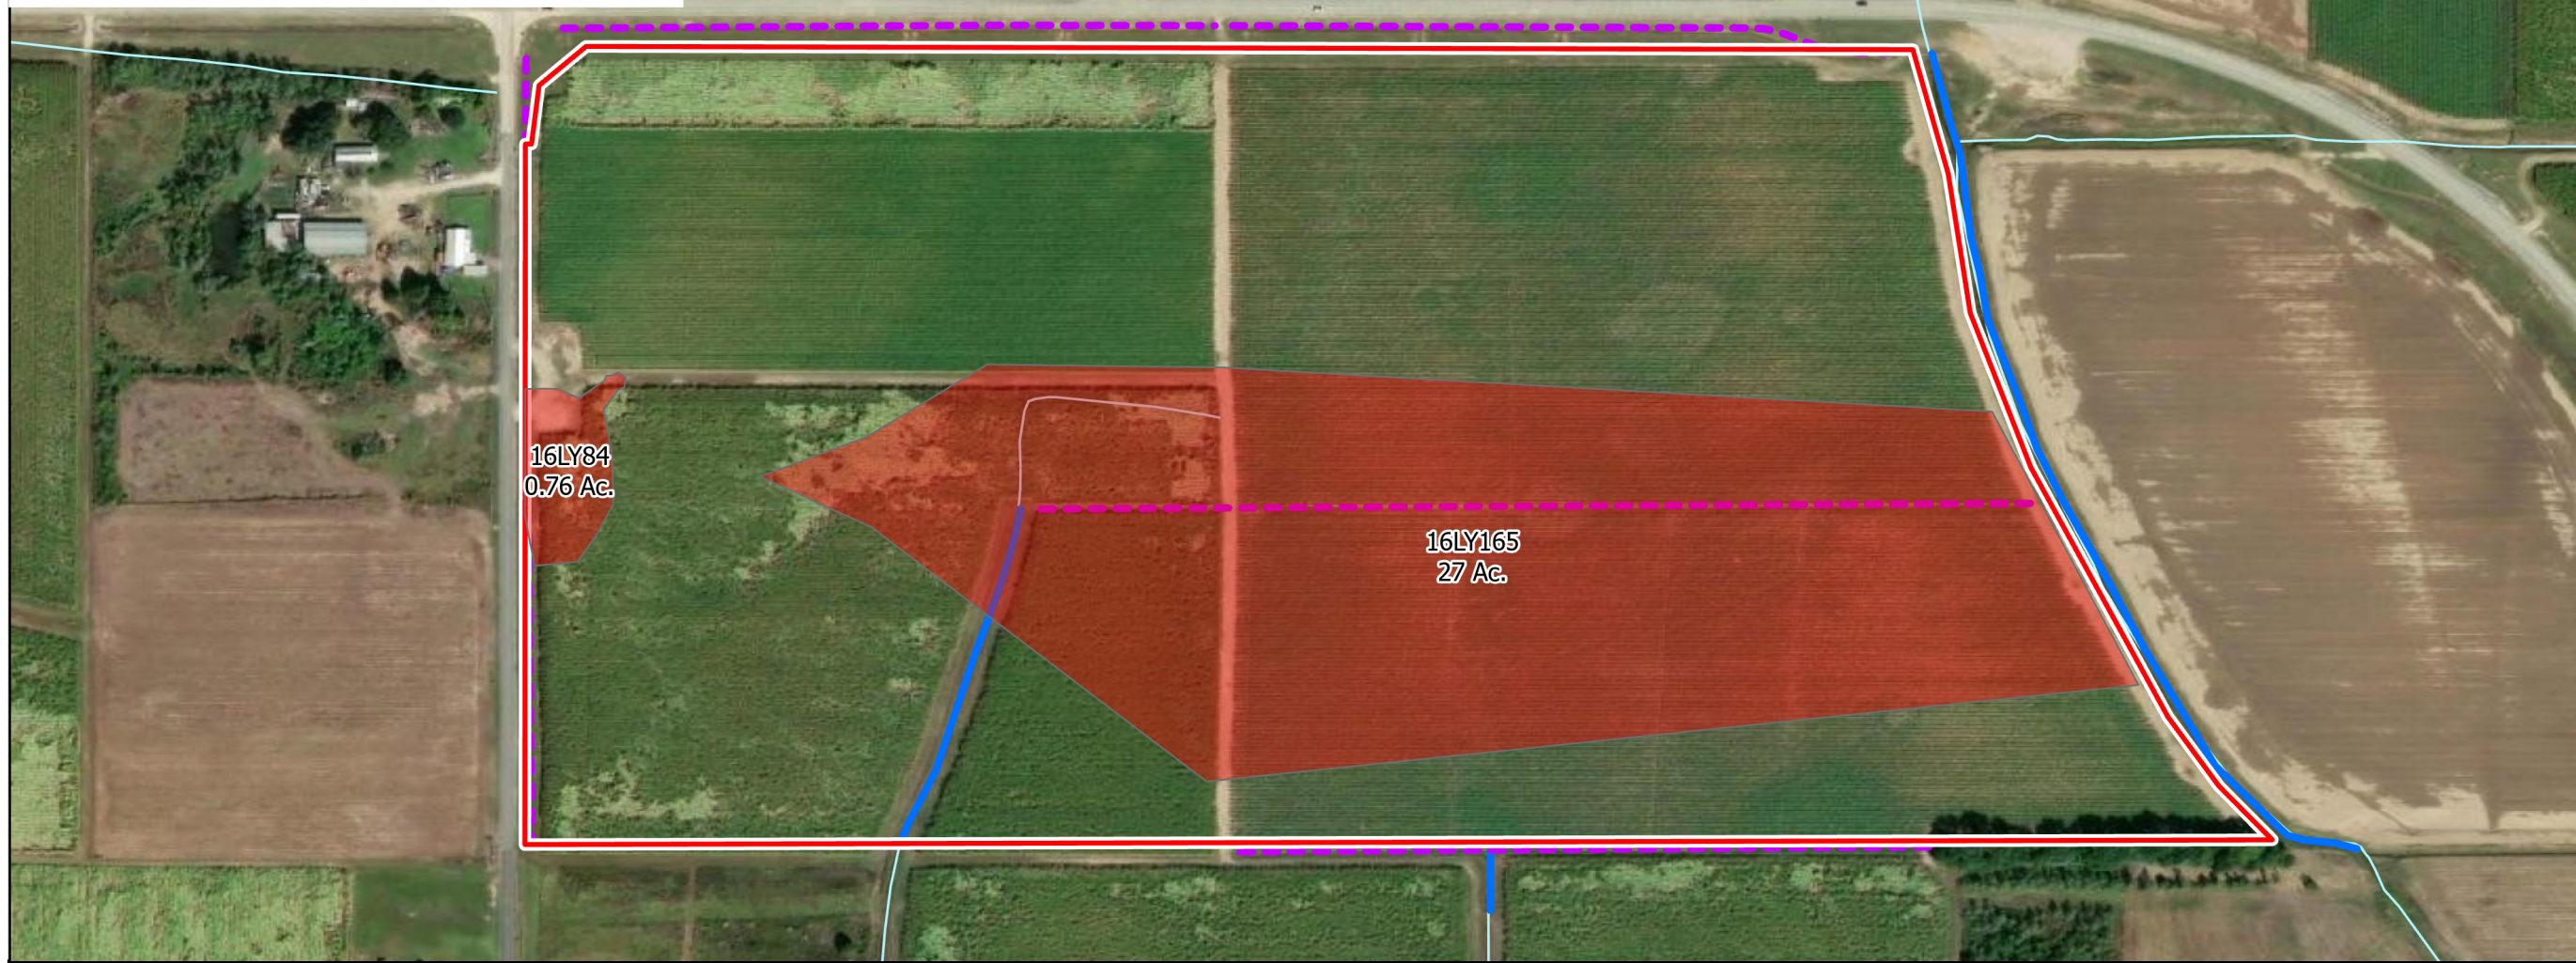

-According to the 2025 Phase I Cultural Resources Survey done by SURA Inc. one new archeological sites were discovered onsite (16IB114), additionally the boundaries of an existing site (16LY84) was updated and expanded. Both sites were deemed likely ineligible for the National Register of Historic Places. **SURA is currently coordinating with SHPO to obtain a Letter of Site Recommendation to confirm these findings and clear the site for development.**
